Well that last post was awful; hope this link is more readable: http://t.co/WEWoeI4 #solopr

KristK 1:58pm via TweetGrid.com

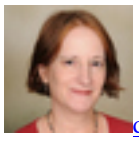
I've labeled them the "choose-nots" cuz they've made conscious decision not to participate -- money and knowledge are not factors #solopr

mediacoach 1:58pm via web

Thank you to all #solopr chums for brightening an English summer day where the rain is coming down in biblical fashion.

karenswim 1:58pm via TweetChat

@jgombita @KristK Completely agree about being pragmatic & meeting people where they are wherever that might be on sm spectrum #solopr



dariasteigman 1:58pm via TweetDeck

Thanks, @KellyeCrane, for another great hour of #solopr. Good convo all.

JanetLFalk 1:58pm via TweetDeck

@3HatsComm Agreed on mad rush w/o strategy #solopr

PaulaJohns 1:57pm via TweetDeck

@KellyeCrane Agree, convo on G+ can be lacking. I also get bored with posts that are long, drawn out -- or uninteresting. #solopr

SoloPR 1:57pm via TweetGrid.com

Before we go, if you have a FB page for your biz, be sure to add it to the comments here - http://t.co/EOYHhmq ! #solopr

3HatsComm 1:57pm via TweetChat

@jgombita @KristK @KellyeCrane It'll be mad rush, sadly w/ little planning, strategy IMO. I will wait, see.. take a closer look 1st #Solopr

karenswim 1:57pm via TweetChat

@JanetLFalk Many of my former corporate colleagues still don't even use LinkedIn (yes I know unbelievable) #solopr

SoloPR 1:56pm via TweetGrid.com

Terrific discussion, all -- can't believe we're almost out of time! #solopr

KristK 1:56pm via TweetGrid.com

RT @JanetLFalk: None of my friends use Twitter; some use FB; Professional contacts ALL use LinkedIn. #solopr

jgombita 1:56pm via TweetChat

@karenswim @KristK that is my life, too. It's important for us to be PRAGMATIC about social media usage re: demographics. #solopr

JanetLFalk 1:56pm via TweetDeck

@karenswim None of my friends use Twitter; some use FB; Professional contacts ALL use LinkedIn. #solopr

KristK 1:56pm via TweetGrid.com

A3: Impt for us (and clients) to have compelling content ready to share as more business SM channels open up #solopr

rajean 1:56pm via web

Yes to Skype chats for now vs. G+ @cloudspark @CarouselPR video & lipstick optional #solopr

garrettkuk 1:55pm via HootSuite

well, that last update was awful. should read http://t.co/WEWoeI4 #solopr

karenswim 1:55pm via TweetChat

@KristK Many of my friends do not use SM at all, phone, email and snail mail is how we keep in touch #solopr

KatieMcManners 1:55pm via TweetDeck

RT @KellyeCrane: A2: I think Twitter chats are the best way to form real relationships here - people are paying attention & conversing. #solopr

KatieMcManners 1:55pm via TweetChat

RT @dwannolsen: A2: to keep a pulse on those in the community and to gather great ideas and feedback regarding industry standards and happening. #solopr

jgombita 1:55pm via TweetChat

A3. I understand one consultant is writing a book about Google+ and business. I'm sure he's already getting "scolded" for that. :-) #solopr

 RebeccaEdgar 1:54pm via HootSuite

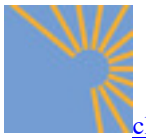
@3hatscomm @jgombita Good pt re relevancy. #soloPR

 KellyeCrane 1:54pm via TweetDeck

@KristK I have my webcam perfectly positioned to avoid showing the enormous mess in my office. :-) #solopr

KatieMcManners 1:54pm via TweetGrid.com

RT @KristK: A2: Twitter chats raise my perspective beyond the issues directly in front of me. I think about what I'm doing, where I'm headed #solopr



cloudspark 1:54pm via HootSuite

@akenn hangout is an invited video chat feature thru g+. #solopr

karenswim 1:54pm via TweetChat

@jgombita @KellyeCrane will be interesting to see if businesses are actually able to connect with prospects/customers there #solopr

KristK 1:54pm via TweetGrid.com

@karenswim Friends know more about my work than my personal life because I use SM for work and dont share much about family, etc. #solopr

dwannolsen 1:53pm via TweetChat

RT @KellyeCrane: A3: Right now, only early adopters are seeing what G+ can do for SEO. Once the word gets out.... #solopr

KellyeCrane 1:53pm via TweetDeck

@RebeccaEdgar That, and the fact that conversation there can often be lacking. Not always, but I don't like as much as Twitter/FB #soloPR

KatieMcManners 1:53pm via Twitter for iPhone

"@dariasteigman: I do some of my best thinking during long runs. #solopr"

 dariasteigman 1:53pm via TweetDeck

@karenswim True too. Though just saw something about pharma & opening up blog comments. #solopr

akenn 1:53pm via TweetChat

I guess we'll see! RT @KellyeCrane: When G+ unveils biz pgs, we'll see lot of media coverage..some clients scrambling for it #solopr

jgombita 1:53pm via TweetChat

It's gonna be HUGE MT @KellyeCrane: think when G+ unveils biz pages, well see a lot of media coverage/clients scrambling for it. #solopr

KatieMcManners 1:53pm via web

RT @kcwriter: A1. My main tactic is carving most of my work time into 1.5 hour blocks w/ 15-minute "life stops" in between #solopr

3HatsComm 1:52pm via TweetChat

@jgombita @RebeccaEdgar I see too much, or too much not relevant to me. AgIn, I want better filters than a 'mute all' option. #Solopr

 KellyeCrane 1:52pm via TweetDeck

A3: Right now, only early adopters are seeing what G+ can do for SEO. Once the word gets out.... #solopr

cloudspark 1:52pm via HootSuite

@CarouselPR agree Skype chat is much easier #solopr

karenswim 1:52pm via TweetChat

@dariasteigman Education and in some cases help from regulatory bodies that make it easier to adopt tools #solopr

 RebeccaEdgar 1:52pm via HootSuite

@kellyecrane Thus the placeholders ready & waiting? #soloPR

KristK 1:52pm via TweetGrid.com

@dariasteigman Still laughing. #solopr

karenswim 1:52pm via TweetChat

I totally understand that market @KristK @dwannolsen and deal with many like that, it also describes many of my personal friends! #solopr

garrettkuk 1:52pm via HootSuite

A3: not my tool, but you can claim your unique G+ username at http://gplus.to/ -- mine is http://t.co/WEWoeI4 #solopr

 Tekaran_Lady 1:52pm via Twitter for iPad

Too busy on my store & blogs for Google + to be for me right now. Might need to think about it for the school though. #solopr

jgombita 1:51pm via TweetChat

@RebeccaEdgar LOL! I was actually asked to supply the link. Grabbed it from a RT by (Canuck) @patriceleroux... #solopr

cloudspark 1:51pm via HootSuite

@garrettkuk thanks garrett, just like to test new things. #solopr

KristK 1:51pm via TweetGrid.com

RT @KellyeCrane: A3: When G+ unveils business pages, we'll see lot of media coverage, and some clients will be scrambling for it #solopr

 dariasteigman 1:51pm via TweetDeck

@KristK Let me put lipstick on. :) #solopr

 RebeccaEdgar 1:51pm via HootSuite

@jgombita @3HatsComm Funny u mention. Find too much info too often. #soloPR

KellyeCrane 1:51pm via TweetDeck

@PaulaJohns I think right now everyone is willing to be a guinea pig on the Hangout feature. Things may change. #solopr

 chriswright_dj 1:51pm via web

I'm still working in my head how to best optimize G+. What will I do with it. Where is the advantage? myspace future? @KellyeCrane #solopr

dariasteigman 1:51pm via TweetDeck

@karenswim We have a lot of educating to do of ppl who run cos., don't we? [ sIgh ] #solopr

KristK 1:50pm via TweetGrid.com

A3: I'm wearing make-up today. Anyone want to hangout? Oh wait, office isn't clean. May go sit in car. #solopr

 KellyeCrane 1:50pm via TweetDeck

A3: I think when G+ unveils business pages, we'll see a lot of media coverage, and some clients will be scrambling for it. #solopr

CarouselPR 1:50pm via web

@rajean @KristK @KellyeCrane Exactly I don't really need Google+ hangouts when there's Skype chat for conferencing #solopr

karenswim 1:50pm via TweetChat

@dariasteigman Yes absolutely, was not disagreeing with you #solopr

rajean 1:50pm via web

Damn, you're right. RT @mediacoach @dariasteigman I think every absolute statement is bound to be wrong. #solopr

 RebeccaEdgar 1:49pm via HootSuite

@jgombita You mind reader! #soloPR

KristK 1:49pm via TweetGrid.com

I live in land of the choose-nots and late-adopters. Church-School-Commnty still work for getting word out @karenswim @dwannolsen #solopr

jgombita 1:49pm via TweetChat

@3HatsComm @RebeccaEdgar there's another (really) big name who spends way too much time posting pictures of family vacation. #solopr

KellyeCrane 1:49pm via TweetDeck

@rajean @KristK Ha! Yes, sometimes I want to do a Hangout with a paper bag over my head. :-) #solopr

SheltonsSalon 1:49pm via web

RT @mediacoach: @dariasteigman @rajean I think every absolute statement is bound to be wrong. #solopr

3HatsComm 1:48pm via TweetChat

@RebeccaEdgar Seen that too, some of the 'big' follows just have placeholder pages, no posts. #Solopr

jgombita 1:48pm via TweetChat

@dwannolsen you're welcome. Best piece of advice for biz is to grab domain names NOW. Used Twitter as an example, re: slow adopters. #solopr

dariasteigman 1:48pm via TweetDeck

@karenswim I realize that. I'm talking about more open-mined cos. Some tools open ideas for internal collab, info sharing. #solopr

dwannolsen 1:47pm via TweetChat

Thanks!@jgombita Can't wait to read this @fastcompany #solopr

rajean 1:47pm via web

Sadly, I'm at a life stage where 'Hangout' is not all that appealing @KristK @KellyeCrane per G+ #solopr - I have enough hangin' out.

karenswim 1:47pm via TweetChat

@dariasteigman Some companies do not allow internet access from work systems or it's limited to what is needed for business only. #solopr

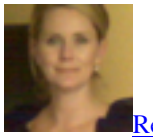
PaulaJohns 1:47pm via TweetDeck

For hangout feature, are people using it for media gatherings or just reg biz meetings? Seems competing media together cld backfire. #solopr



RebeccaEdgar 1:47pm via HootSuite

I need "G+ for dummies". On, but haven't put the time in. Saw stat today that 50%ish of users haven't posted a thing. #solopr

@karenswim Agreed. But I think there's opening for G+ --since so many ppl hang out w/ Google already. #solopr

SheltonsSalon 1:46pm via web

@rajean I haven't found a really good use for our LinkedIn account. The only thing that matters is that we have one. #solopr

Tekaran_Lady 1:46pm via Twitter for iPad

My thoughts exactly. RT "@SheltonsSalon: #solopr I agree. #facebook is still the best online marketing tool. And #twitter"

karenswim 1:45pm via TweetChat

@dwannolsen Yes I do, we "insiders" can forget that so many "regular" people are not even using the old tools yet #solopr

rajean 1:45pm via web

Good point @dariasteigman - I think it's our job to determine the best SM outlets for our clients based on their niche. #solopr

RT @SoloPR: If you arent on G+ and want to be, you can use the invite link in the post: bit.ly/oICB4z #solopr

jgombita 1:45pm via web

@KellyeCrane @akenn I'm not seeing it. You don't say fastcompany, do you? #solopr

karenswim 1:45pm via TweetChat

@dariasteigman It can depending on the size of co. and industry. These are Fortune 100 cos who have created their own internal SM #solopr

akenn 1:45pm via TweetChat

@kellyecrane @cloudspark can you explain the hangout feature? #solopr

3HatsComm 1:45pm via TweetChat

@KristK Agreed, need to kick tires first. I'm still learning G+. #Solopr

KristK 1:44pm via TweetGrid.com

@KellyeCrane I haven't used the Hangout feature yet. Intrigued. #solopr

cloudspark 1:40pm via HootSuite

@SoloPR I did. I'm about to host another media 'hangout chat' - again think mist just want to try it out. #solopr

 dariasteigman 1:40pm via TweetDeck

@garrettkuk I agree RE Search/SEO. It's why I think G+ has legs: co's finally integrated "social" into its core biz. #solopr

KristK 1:40pm via TweetGrid.com

A3: The only people who have asked about G+ are those active on other channels. If not on FB or Twitter, G+ isnt even on radar #solopr
